Kanna – Kurv Table Light

Inspired by the elliptical orbits of the planets and moons that line the inner edges of our vast solar system, the Loer Lighting Range brings weightless illumination to any space it reaches. Combining a beautiful translucent glass sphere, sustainable steam bent ash wood and brushed metallic brass, the Loer showcases minimal, nature-inspired design at its finest.

Meaning 'Moon' in Cornish, the Loer Crescent Pendant showcases clouded bands of warm celestial white light, suspended upon a sleek arc of supple ash wood. Soaring at varying heights, two translucent glass orbs are held in place by brass detailed fixings that reflect the soft illustrious glow of the spherical globes when illuminated. This statement, wooden ceiling pendant is thoughtfully crafted to create the perfect balance, and its unique design looks equally eye-catching when switched off.

Illuminate space. Seek the extraordinary.
