

Ocean Bench

Discarded fishing nets and recycled hard plastic

The Ocean Bench is a part of the Ocean Collection, a reimagined outdoor series, originally designed in 1955 by Jørgen and Nanna Ditzel. The design is reissued in ocean plastic waste to prevent pollution of the world's oceans. The Ocean Collection is designed for disassembly, meaning that the design allows each component in its purest form to recycle into new production circles. Durable for both private and public use.

Sand

Designed by
Jørgen and Nanna Ditzel

Item no.
09351 Ocean Bench – Black*
09353 Ocean Bench – Sand*

**Variation possible due to recycled materials*

Country of origin
Poland

Materials

Slats made from discarded fishing nets mixed with recycled hard plastic. One bench contains 3500g / 123oz ocean plastic waste

Steel tube, 20% recycled steel, Gunmetal finish

Gliders

Hard plastic gliders installed as standard

Dimensions

W 157 cm D 58 cm H 81 cm
SH 46 cm ARH 67 cm / W 62" D 22"
H 32" SH 18" ARH 26"

Weight

16,6 kg / 36.5 lbs

Packaging 1 box / 1 pcs.

Maintenance

Please follow our material cleaning and care guide [here](#)

Mater Sustainability Factsheet

Ocean waste

Old fishing nets from the ocean are collected, washed, shredded and made into pellets, also known as green plastic. We use ocean waste for our outdoor series and injection moulded chairs.

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Contact our customer service for more info [here](#)

Steel

Our Steel is made from 20% recycled steel with a gun metal finish. Steel is a strong and light material that can be processed in unlimited ways.

CO₂ Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.

Ocean OC2 Bench

Discarded plastic beer kegs
and recycled hard plastic

The Ocean OC2 Collection was originally designed in 1955 by some of the 20th century's most renowned designers, Jørgen and Nanna Ditzel. The design has now been created in plastic waste from Carlsberg's discarded plastic beer kegs. The series is characterized by its light structure with repeated slats and metal frames, made and tested for outdoor use. The Ocean OC2 Collection is designed for disassembly, meaning that the design allows each component in its purest form to recycle into new production circles.

Discarded beer kegs

In collaboration with one of the leading breweries in the world, Danish Carlsberg, Mater is using their used beer kegs to mould into the slats of the seats of the Ocean OC2 Collection.
