

Raya Table Light

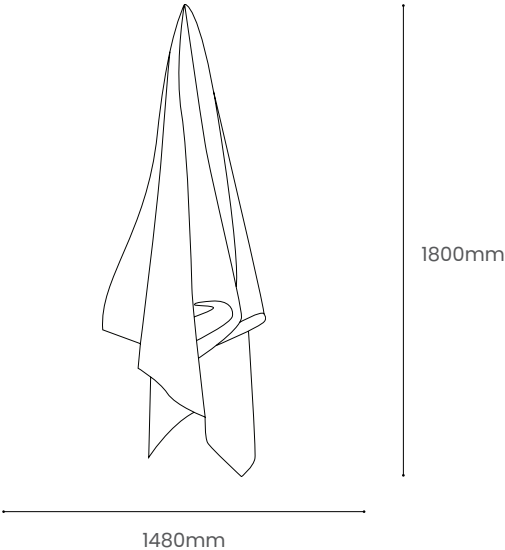

Inspired by the elliptical orbits of the planets and moons that line the inner edges of our vast solar system, the Raya Table Light brings weightless illumination to any space it reaches. Combining beautiful translucent glass, sustainable steam bent ash wood and brushed metallic brass, the Loer showcases minimal, nature-inspired design at its finest.

Named after lunar forms found in our solar system, the Raya Table Light showcases a translucent glass orb with clouded bands of warm celestial white light, rooted on a base of sustainably sourced ash wood, flourished with a brass base plate. The opulent wooden wall light calms interiors with its solar inspired design and is easily suited to bustling hallways, soothing bedside lighting and contemporary home office spaces.

Illuminate space. Seek the extraordinary.

Dartmoor Wool Throw

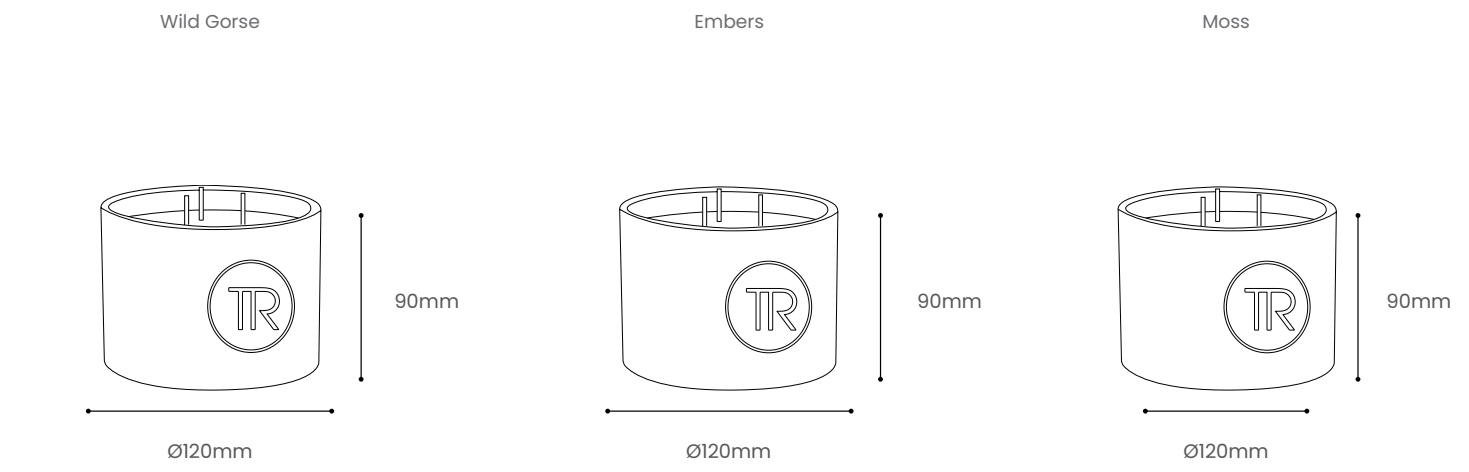

Handmade in the UK by a team of expert weavers who combine their exceptional skill and traditional weaving methods with sustainable textiles, our range of wool throws are set to add warmth and texture to any space.

Tuck in and settle down with the Dartmoor Wool Throw, made from pure new wool and available in a range of colours in an elegant two-tone design. New wool fibres are 100% natural, strong, fine and durable, making these luxury throws warm, insulating and long-lasting. Each cosy throw comes from a sustainable, renewable, source and offers versatility, texture and comfort making it the perfect ‘family’ blanket – warm, washable (on a cold wool setting) and ideal for everyday use. As a natural insulator, this large wool blanket is the perfect way to transform chilly evenings into warming, peaceful moments.

Drape, throw, enjoy.

Care information	<ul style="list-style-type: none"><li>Guidelines for use: For best results we recommend burning the candle for three to four hours at a time. Never move the candle whilst lit or before the wax has hardened. Keep the wick trimmed to approximately 10 mm and remove wick trimmings, match stubs and any other foreign objects from the candle. Discard when 10 mm of wax remains. There may be bubbles or variations in colour or texture in the finish of the candle – this can occur during the curing process of the natural wax used in our candles and is perfectly normal.</li><li>Important safety information: Never leave a burning candle unattended and keep out of reach of children and pets. Always place the candle on appropriate heat resistant base or holder on a flat stable surface, away from draughts and flammable objects.</li></ul>
