## Design by Muller Van Severen

The continuation of a great collaboration between HAY and Belgian designers, Muller Van Severen, Arcs Trolley is the latest product in the series to feature the distinctive, scalloped silhouette.

Driven by the concept that a good object needs to be both technical and poetic, Arcs Trolley balances equal measures of aesthetics and function to offer a broad functional use without losing character in design.

## Muller Van Severen

Muller Van Severen was founded in 2011 by Belgian artist duo Fien Muller and Hannes Van Severen. The couple has always been on an inspired quest for sculpturally interesting furniture objects, and their work sits somewhere between design and art, drawing on their passion for architecture and materials. For HAY, Muller Van Severen has designed the Two-Colour Table, Colour Cabinet, the Arcs Lamp Shades, the Arcs Candleholder and Vase.
