# FABRIC DECOR

MOSAIC 10x10

Fabric is a glass mosaic comprising chips from the Vetrina Glossy, Vetrina Matt, Concerto, Perle and Metal collections, mounted on fibreglass mesh to create modular or single panel compositions.

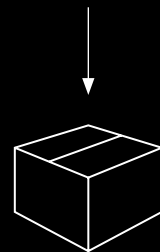

FABRIC is intended to have a natural, randomized design. There are 16 unique sheets in each box.

- to obtain the design as represented in the catalogue and room scenes, please follow the layout scheme beside.

- if you wish to obtain your own effect, just follow your creativity (please make sure you dry-lay all the sheets for the installation before adhesion to ensure you have obtained the textile effect you desire).
