Adjustable pedestal support system & perimeter finishing edge profiles for raised indoor floor covering applications

ARCHITESSA

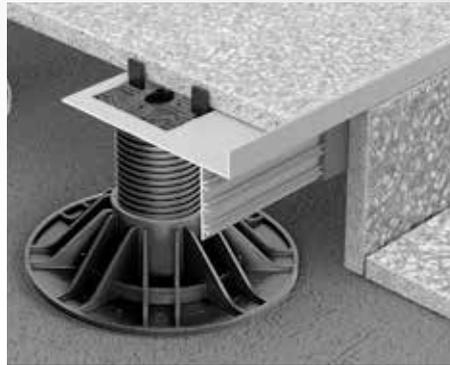

## PROSUPPORT PROFILE A/B

Prosupport Profile A/B can be used with ceramic, wood, composite material and natural stone coverings. Prosupport Profile A/B is a perimeter edge profile designed to protect and finish the outer edge of raised floors covering. The PROSUPPORT PROFILE A/B consists of 2 pieces Prosupport Profile A and Prosupport Profile B. Prosupport Profile A is an "L"-shaped horizontal flat base that is installed in between the PROSUPPORT head and surface covering. Prosupport Profile B is a visible finishing trim that attaches to the vertical L portion of Prosupport A. As indicated in below Prosupport A and B are available in multiple sizes and Prosupport B is available in multiple colors and finishes.

## PROSUPPORT PROFILE T

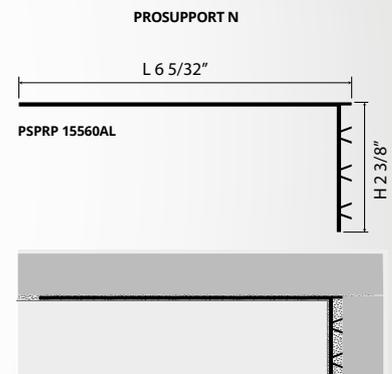

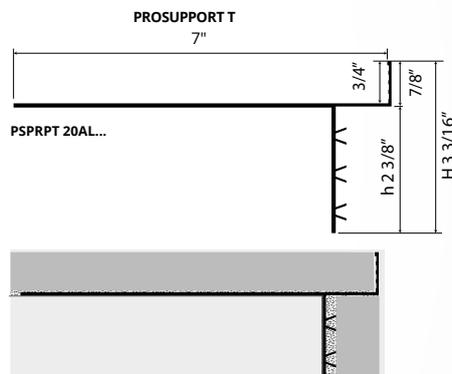

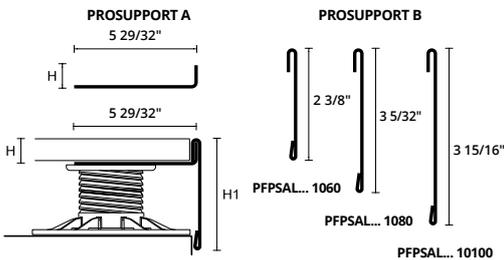

Prosupport Profile T can be used with ceramic, wood composite material and natural stone coverings. Prosupport Profile T is a perimeter edge profile designed to protect and finish the outer edge of raised floors covering. Prosupport Profile T proprietary design allows to use the same material in the entire raised floor application for a visually pleasing and structurally sound installation. The vertical section of the profiles features specially designed fins that create a dovetail cladding system. This dovetail cladding system allows for the adhesive used to fix the covering to also mechanically bond to the profiles itself. The profile is provided with a decorative edge of 3/4" height to cover the exposed edge of the covering and is available in multiple colors and finishes.

## PROSUPPORT PROFILE N

Prosupport Profile N can be used with ceramic, wood composite material and natural stone coverings. Prosupport Profile N is a perimeter edge profile designed to protect and finish the outer edge of raised floors covering. Prosupport Profile N proprietary design allows to use the same material in the entire raised floor application for a visually pleasing and structurally sound installation. The vertical section of the profiles features specially designed fins that create a dovetail cladding system. This dovetail cladding system allows for the adhesive used to fix the covering to also mechanically bond to the profiles itself. Prosupport Profile N completely visually eliminates the impact of a metal edge trim profile by using the covering itself to finish the edge.

## SELF-LEVELLING HEAD MODEL

# Self-Levelling Head + Screw + Extension + Base

PROSUPPORT SYSTEM is a pedestal support system for indoor and outdoor raised floors. PROSUPPORT SYSTEM height is fully adjustable from a minimum of 1 3/8" to a maximum of 7-7/8". PROSUPPORT SYSTEM is a modular fully adjustable system made of Polypropylene suitable for outdoor areas like roof tops, terrace, pool surroundings, pedestrian walkways, decks and patios. Self-leveling head version has a specifically designed joint that allows to compensate for substrate pitches of up to 5% without the use of wedges. The raised floor will be horizontal even though the subfloor underneath has a draining pitch of up to 5%.

**SELF LEVELING AND FIXED UNIVERSAL PROSUPPORT KIT**  
 (head not included) - polypropylene - box 40 pcs (base + screw: PSRG3555, PSRG5570, PSRG70110, PSRG11150)  
 (base + screw + extension + screw: PSRG15170, PSRG17200)

Article	Height range inches	Box / Pallet	\$/Pc	\$/Pack.
PSRG3555	1-3/8" ÷ 2-5/32"	40	5.77	230.80
PSRG5570	2-5/32" ÷ 2-3/4"	40	6.17	246.80
PSRG70110	2-3/4" ÷ 4-11/32"	15	7.20	288.00
PSRG11150	4-11/32" ÷ 5-29/32"	15	8.15	326.00
PSRG15170	5-29/32" ÷ 6-11/16"	15	12.20	488.00
PSRG17200	6-11/16" ÷ 7-7/8"	15	12.99	519.60

Items not for sale individually. Minimum order one box.

**SELF-LEVELLING HEAD** with removable spacing flaps  
 Spacing dimension 3/32" and 5/32" - pack = 40 Pcs per box

Article	Flap thick. inches	\$/Pc	\$/Pack.
PSRG 02	3/32"	1.29	51.60
PSRG 04	5/32"	1.29	51.60

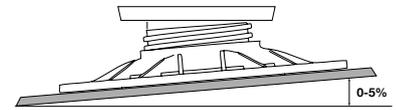

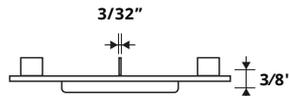

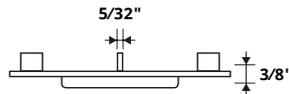

Items not for sale individually. Minimum order one pack.

### HOW TO ORDER

- 1) Choose the code of the KIT without the head in the desired height (Ex: PSRG5570)
- 2) Choose the code of the desired head (Ex: PSRG 04)

### EXAMPLE

To order 80 pieces of Prosupport with self-leveling head with 5/32" thick flaps and variable height from 2-5/32" to 2-3/4"  
**Write in the order:**  
 2 boxes of 40 pcs code PSRG70110 + 2 boxes of 40 pcs code PSRG 04

# FIXED HEAD MODEL

## Fixed head + Screw + Extension + Base

PROSUPPORT System is a pedestal support system for indoor and outdoor raised floors. PROSUPPORT SYSTEM height is fully adjustable from a minimum of 1 3/8" to a maximum of 7-7/8". PROSUPPORT System is a modular fully adjustable system made of Polypropylene suitable for outdoor areas like roof tops, terrace, pool surroundings, pedestrian walkways, decks and patios. Fixed head version allows for the raised floor to maintain the same pitch of the base. Fixed head can be used to create a desired pitched raised floor when large size coverings are used to improve drainage.

**SELF LEVELING AND FIXED UNIVERSAL PROSUPPORT KIT**  
(head not included) - polypropylene - box 40 pcs (base + screw: PSRG3555, PSRG5570, PSRG70110, PSRG11150)  
(base + screw + extension + screw: PSRG15170, PSRG17200)

Article	Height range inches	Box / Pallet	\$/Pc	\$/Pack.
PSRG3555	1-3/8" ÷ 2-5/32"	40	5.77	230.80
PSRG5570	2-5/32" ÷ 2-3/4"	40	6.17	246.80
PSRG70110	2-3/4" ÷ 4-11/32"	15	7.20	288.00
PSRG11150	4-11/32" ÷ 5-29/32"	15	8.15	326.00
PSRG15170	5-29/32" ÷ 6-11/16"	15	12.20	488.00
PSRG17200	6-11/16" ÷ 7-7/8"	15	12.99	519.60

Items not for sale individually. Minimum order one box.

**FIXED HEAD with removable spacing flaps**  
Spacing dimension 3/32" and 5/32" - pack = 40 Pcs per box

Article	Flap thick. inches	\$/Pc	\$/Pack.
PSTP 02	3/32"	0.58	23.20
PSTP 04	5/32"	0.58	23.20

Items not for sale individually. Minimum order one pack.

### HOW TO ORDER

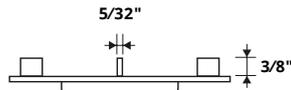

- 1) Choose the code of the KIT without the head in the desired height (Ex: PSRG5570)
- 2) Choose the code of the desired head (Ex: PSTP 04)

### EXAMPLE

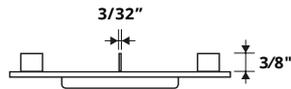

To order 80 pieces of Prosupport with self-leveling head with 5/32" thick flaps and variable height from 2-5/32" to 2-3/4"

Write in the order:

2 boxes of 40 pcs code PSRG70110 + 2 boxes of 40 pcs code PSTP 04

Head with removable flaps 5/32" PSTP 04

Head with removable flaps 3/32" PSTP 02

### PROSUPPORT SYSTEM HEIGHTS

HIGHER HEIGHTS UP TO 7-7/8" ON DEMAND, PRICE AND DELIVERY TIME TO BE AGREED

## OPTIONAL

### Adjustable Spacer Tabs 5/32"

Spacer tabs, 2 3/8" length, to be fixed on the self-leveling head. They allow the application of wooden, WPC and Aluminium joists with a maximum width of 3 5/32", for the laying of wooden and WPC flooring.

ADJUSTABLE SPACER TABS 5/32" - polypropylene 2 3/8" - pack. 80 Pcs (box 80 pcs)			
Article	LxH (inches)	\$/Pc	\$/Pack.
ALDPS 60	2 3/8"x3/4"	2.06	164.80

### Anti-Noise And Anti-Slip Rubber Disk

Rubber disk designed to reduce noise up to 25 db and prevent slipping of the tiles. Height 1/8" and diameter 4 21/64". To be placed on the self-leveling or fixed head.

ANTI-NOISE AND ANTI-SLIP RUBBER DISK H 1/8" - pack. 180 Pcs (box 180 pcs)			
Article	H - Ø	\$/Pc	\$/Pack.
GARPS 3110	H 1/8" - Ø 4 21/64"	1.91	343.80

### Flange Locking Device

Locking Flange prevents the rotation of the screw to avoid flooring movements over time. Height 5/16" and diameter 2 61/64". To be placed at the bottom of the screw.

FLANGE LOCKING DEVICE - Polypropylene H 1/8" - pack. 250 Pcs (box 250 pcs)			
Article	H - Ø	\$/Pc	\$/Pack.
AFBPS 875	H 5/16" - Ø 2 61/64"	1.91	477.50

### RUBBER DISK for laying on bituminous roof membrane

Rubber disc, 3/32" thick, to be applied under the support (SQG 15) to protect the bituminous membrane.

RUBBER DISK for laying on bituminous roof membrane 3/32" - pack. 100 Pcs (box 100 pcs)			
Article	L (inches)	\$/Pc	\$/Pack.
LVGG 02	3/32"	2.01	201.00

### Spacer for application on gravel

Transparent plastic cross spacer for laying on gravel or irregular surfaces.

SPACER FOR APPLICATION ON GRAVEL Pack. 100 Pcs (box 100 pcs)		
Article	\$/Pc	\$/Pack.
DILV	0.94	94.00
