Lead times for specialty & non-stocked items varies depending on product ordered, quantity, and destination. Please contact Architessa to determine the lead time to order samples and material.

DESCRIPTION

COPPER ROWE is a complex design project that features different types of wood and combines the familiar large strip tiles with the 8x8 size, an original stylistic touch which becomes the collection's key characteristic. The design expresses all the beauty of the different wood's vein patterns, structures and colors, considered from different angles: from the side, from the end and along the length of the planks. The different sizes can be combined or alternated on floors or walls to create distinctive, unconventional interiors, with striking contemporary design.

INSTALLATION & MAINTENANCE

COPPER ROWE may be installed using standard ceramic installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architessa sales representative will advise you on general installation questions.
