HELLO.
WE'D LIKE TO
REINTRODUCE YOU TO
OUR LEGENDARY LINE,
STELLAR.

REVAMPED.
REINVIGORATED.
REFRESHED.
DELIGHT IN THE EXPANSIVE,
NEW STYLES
AVAILABLE TO YOU IN

108
DELICIOUS COLORS.

SUGGESTED APPLICATIONS

- Walls
- Light Duty Floors
- Light Duty Countertops

KEY USAGE & INSTALLATION NOTES

- These tiles are made with a semi-absorbent talc clay body and particular attention should be paid to:
 - 1) installation of an absorbent clay body
 - 2) usage of matte glazes
 - 3) extra care required for crackles in wet areas
- Stellar mattes have a high resistance to abrasion, but may be prone to some surface staining
- Crackle surfaces require special care and maintenance to avoid moisture intrusion and staining.

HANDCRAFTED CHARACTERISTICS

Variation in shade, texture, color and size are inherent characteristics of handcrafted tile. Most Stellar glazes are applied solely by hand and, as such, they are particularly subject to wide variation from tile to tile. As such, the tiles finally purchased will vary from both the catalog illustrations and samples.

INSPECTION AND INSTALLATION

Always inspect your tiles before they are installed, as installation of material constitutes acceptance. Any questions as to acceptability must be resolved before installation. We are in no way responsible for the installation of our tiles or thereafter. The responsibility for correct installation rests with the end user.

➤ See **STM Tech Info** at sonomatilemakers.com for more detailed information.

GREENER EVERY DAY

We hand craft our tile in the California Wine Country. From the moment we remove the clay from the earth to the time it is installed as beautiful, sustainable tile – our practices respect the planet, our hometown, our employees and our clients. We are committed to eliminating waste from our production process, utilizing clean energy practices and protecting the environment.

- Our clay is consciously excavated in the USA – we utilize every bit of it.
- We produce over 150 colors and finishes comprised of natural minerals. Our glazes are 100% lead-free and non-toxic
- We have over 180 solar panels on the roof of our factory building. We are the largest solar energy manufacturer in our hometown of Windsor, CA
- We continually invest in state-of-the-art machinery to maximize energy efficiency
- We utilize a sophisticated dust collection system throughout our factories for healthier air
- Our shipping boxes are compliant with the Sustainable Forestry Initiative. They are made with a minimum of 70% post and pre-consumer recycled materials and are printed with soy-based inks
- We recycle all paper, plastic, cardboard, styrofoam boxes and wooden pallets in every department
