DESCRIPTION

Travertine has for centuries represented great strength and power as well as gentle beauty and softness. The Tibur collection cohesively blends these many faces of travertine into a porcelain tile collection that effortlessly communicates these seemingly conflicting ideas. This juxtaposition is further enhanced with natural veining expressed in bold but organic colors.

INSTALLATION & MAINTENANCE

Tibur may be installed using standard porcelain installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architessa sales representative will advise you on general installation questions.
