ARCHITESSA

For over 30 years, we've brought artful living and highly-curated design to diverse client spaces around the country—first as Architectural Ceramics and now as Architessa.

Certified Women-Owned and family-operated since our founding, Architessa brings generations of knowledge, passion, and experience to our ever-evolving industry.

We are a comprehensive tile and stone company that works with homeowners, designers, architects, and more to find the perfect tile for every project.

CONCIERGE SERVICE

The road to tile and design selection can be tough to traverse for both businesses and homeowners but with our renowned Concierge Service, we take every step with you. We are Architessans—tile lovers and experts who walk alongside you, helping you realize your vision through a wealth of options, crafted expertise, fine detail planning, and preparation for the unexpected.

INCOMPARABLE SELECTION

Architessa offers an expansive library of high-quality tile ranging from ceramic, porcelain, glass, natural stone and marble, wood, terracotta and more. We import our tile from all over the world, bringing both domestic and international products to our showrooms in the D.C., Virginia, Maryland, and Atlanta metro areas as well as through our national commercial representatives. In addition, we have over 30 specialty vendors which can be custom ordered for your unique project. With thousands of selections available, Architessa works with you to find the best options for you and your space.

TIMELESS DESIGN

Tile is an art rich with history and through it your space can tell a story. Our Architessans use their knowledge of the past and eye for the future to help you craft a timeless, innovative design that speaks for itself—a narrative in tile that elevates your space and evokes emotion. Architessa provides tile and more by embracing the journey and loving the destination.

NATURAL STONE

Natural Stone tile is one of the oldest forms of building material that fits with traditional and contemporary designs in equal measure. We take sourcing natural materials very seriously - our President visits quarries around the world in search of the best stone. Our expert staff is well-versed in scenario planning and sourcing, as fine details such as extreme temperature can affect output at the quarry.

STONE CARE & MAINTENENCE

Stone requires more care & maintenance than non-porous surfaces, like porcelain, but is still easy to maintain. Always follow manufacturer recommendations for installing & maintaining products. If available, these are typically located in each box of tile and sometimes online.

Please refer to the **Natural Stone Care and Maintenance** document on our website for more details.

IMAGE DISCLAIMER

The color of tiles printed in this catalog may differ from actual tiles. Tile color reproductions in this catalog are representative only. Colors may differ when viewed on different monitors or screens.

Slight tone and shade variations are inherent in natural stone tiles. Before placing an order, we recommend first ordering a sample.
