Material thickness: 10 mm

Graphite [gra-fit]

Pencil drawings are one of the oldest forms of self-expression. A versatile medium, artists throughout the centuries have used charcoal to sketch the outlines of frescos, while others used the medium to create illustrated masterpieces. Lunada Bay Tile takes inspiration from this art form for its latest ceramic collection, Graphite. The subtly textured tile has the appearance of soft pencil or charcoal, evoking emotion and drama through its black iron shading.
