Lead times for specialty & non-stocked items varies depending on product ordered, quantity, and destination. Please contact Architessa to determine the lead time to order samples and material.

DESCRIPTION

LENNOX is a rectified ceramic wall tile with a special decorative glazed pattern, offering a simple yet unique design for any interior space.

INSTALLATION & MAINTENANCE

LENNOX has a special decorative finish with precious metals and distinctive glazing and must only be cleaned with a cloth soaked in water and natural detergent. Acidic cleaners and abrasive sponges may not be used as they can damage the glaze. The manufacturer recommends this product be installed with a 1/16" grout joint. An Architessa sales representative will advise you on general installation questions.
