DESCRIPTION

VANGUARD is a perfect reproduction of a classic Travertine from the Tivoli region in central Italy. Vanguard is distinctly directional in design by mimicking the vein cut technique, which cuts the block of marble in the direction of the material's vein.

INSTALLATION & MAINTENANCE

VANGUARD may be installed using standard ceramic tile installation methods and materials, as recommended by the Tile Council of North America (TCNA). An Architessa sales representative will advise you on general installation questions.
