

The Allstar chair defies conventional categorisations: is it a chair for office workplaces or the home office? What period is it from? Does it fulfil specific functions? What is it made of? In developing Allstar, Konstantin Grcic kept such formulations open in order to create a relaxed, home-like ambience for workers in office settings. Allstar's appealing design is emblematic and familiar, inspiring a sense of dependability and trust. Its casual ease and comfort has a calming influence and de-accelerates the fast-paced dynamic of today's offices.

Allstar also discreetly conceals the necessary functional features of an office chair: a synchronised mechanism with

lockable positioning, adjustability of seat height and depth, and an adjustable backrest. The stout loop frame made of robust plastic simultaneously performs the function of armrests, backrest support and extended arm of the mechanical unit. It enables the separate movement of seat and backrest and transfers the load forces to the mechanical unit under the seat. The organically shaped cushions of the seat and back work together with the technical functions to ensure a high level of comfort. Thus Allstar is suited to a wide variety of settings where high functional performance is desired but a classic office chair would be inappropriate for aesthetic reasons – making it an ideal choice for modern workplace concepts or coworking spaces as well as home offices.

Materials

- **Office swivel chair in accordance with EN 1335.**
- **Backrest and seat:** backrest in polyamide, coated with polyurethane foam. Backrest height adjustable up to 5 cm using a quick release lever. Seat with contouring on the front edge, consisting of a polyamide seat plate and polyurethane foam. Covers in fabric or leather, freely stretched over the surfaces of the seat and backrest.
- **Armrest/back bracket:** loop frame made of polyamide that simultaneously serves as the armrest structure, backrest support and extended arm of the mechanical unit.
- **Mechanical unit:** the synchronised mechanism can be locked in the upright position. Equipped as standard with seat height and seat depth adjustment. Plastic in the colour deep black.
- **Base:** five-star base in polyamide (deep black) with double castors (Ø 60 mm, basic dark).

FUNCTIONAL FEATURES

Despite its outward simplicity, Allstar contains all the functions necessary for an office chair according to current standards: a synchronised mechanism, seat depth and height adjustment, and an adjustable backrest that can be locked in the upright position.

COLOUR COMBINATIONS

To simplify the selection of available colour options, Vitra and Konstantin Grcic have developed a number of recommended colour combinations – so-called Beauty Versions. Based on the colour of the loop armrests, coordinated colours have been specified for the various fabric covers.

Base

Hopsak Home/Office, F60

Hopsak is an expressive, flat plain-weave fabric made of polyamide. The duotone colours offer a multitude of design possibilities in high-contrast, brightly hued or subtle combinations of warp and weft threads. Highly durable and robust, Hopsak can be used in private interiors as well as public areas.

Hopsak is available in 35 colours.

Material	100% polyamide
Weight	550 g/m ² (16.2 oz/y ²)
Width	127 cm +/- 2 cm (50")
Abrasion resistance	200,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

 71 yellow/pastel green	 85 mint/ivory	 73 petrol/moor brown	 84 blue/moor brown	 75 dark blue/moor brown	 23 nero/ivory

Tress Home/Office, F8o

vitra.

Tress is a flat woven fabric with a lively appearance that derives from the contrast between its even structure and the natural melange of colours. The combination of yarns with varied hues creates a harmonious and yet vibrant look. Thanks to its high wool content, Tress is a durable, easy-care material with a home-like aesthetic.

Material	8% polyamide, 73% new wool, 19% polyester
Weight	310 g/m ² (9.1 oz/y ²)
Width	142 cm +/- 2 cm (56")
Abrasion resistance	40,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Tress is available in 22 colours.

Volo Home/Office, F6o

Volo is a finely structured wool blend with a refined weave that gives it an elegant appearance. This expressive textile shows strong solid colours to full advantage while simultaneously offering pleasant tactile qualities. With its soft look and appealing texture, Volo is a perfect fit for home interiors, but it is also well suited for use in the contract sector.

Material	15% polyamide, 85% new wool
Weight	435 g/m ² (12.8 oz/y ²)
Width	145 cm +/- 3 cm (57")
Abrasion resistance	100,000 Martin- dale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Volo is available in 17 colours.

Silk Mesh Home/Office

Silk Mesh is a three-dimensional spacer fabric. Thanks to the air cells in the regular honeycomb structure, the fabric not only provides a comfortable cushioning effect but also ensures a pleasant seating climate. Silk Mesh is extremely robust and well suited for use in office environments.

Silk Mesh is available in 7 colours.

Leather Home/Office, L20

vitra.

The standard grade leather used by Vitra is a robust cowhide leather, dyed-through, pigmented and embossed with an even grain pattern. Since it is hard-wearing and easy to maintain, it can also be used in office environments.

Leather is available in 16 colours.

Material Robust cowhide with a distinctive, even grain

Fastness to light Type 6

Thickness 1.1–1.3 mm
Fastness to rubbing Grade 4 dry and wet
