SAVAGE / COUTURE

FABRIC COLLECTION 2016

Savage Couture is where intrepid travel and haute couture meet.

Savage raw linen and couture artisan fabric create new interior territory.
This is a look of adventurous glamour with innovative designs imbued
with sensory textures in colours with verve.

Explore the beauty of understated linen in all its refined and rugged guises.
This classic cloth combines with silk, wool, parchment and metallic
to create layers of luxurious textiles distinguished by their unique feel
and iconic weight.

Artisan techniques and handcrafted details underpin each fabric. In the
hands of Bernie de Le Cuona these traditional ways create new effects.
Cleopatra, a delicious silk linen falls like a floor-sweeping gown. *Persia*,
a tweed crosses a tapestry and Chanel jacket woven in ribbons and tapes.
Metallic threads lose their heaviness in *Treasure*, a sublime mesh with
a hint of silver. *Vintage* linen is painted to resemble canvas or beaten up
like *Flint*, with a stone-flecked finish.

Style is about surprise and travel is the bedrock of originality.
Savage Couture marries both forces in a richly evocative collection
designed for a worldwide stage.
