Salon Chair Beech/black lacquer

The Salon Chair embraces an artistic expression with a high level of comfort in a timeless design.

The Salon Chair is defined by its sophisticated detailing, among them the elegant dovetail joint in different wood species creating a beautiful contrast. The Salon Chairs in oak is supplied with a dovetail joint in ash and the Salon Chairs in Beech is supplied with a dovetail joint in walnut.

A very deliberate choice, turning the construction of the chair into its distinctive and characteristic decoration.
