Product description:

A delicate shallow yet spacious wall-mounted shelving unit that offers convenient storage in the kitchen, bathroom, office, hallway or living room. The angle brackets on the back ensure good stability and preserve the open expression. Each steel wall shelf has a gently rounded front to emphasize the detailing of the individual elements and give a smooth touch to the raw metal profiles. With its shallow depth, this functional unit provides an elegant place to display your favourite objects or drop off your everyday carry.

Designer's thoughts:

'The design of the steel shelf unit began with the bent corners, which were intended both to frame the shelves, like a closed case, and act as the structure of the unit. The bent edges of the individual components soften the visual appearance of the hard steel and make it possible to minimize the thickness of the elements.' - Jonas Herman, Herman Studio
