## Dimensions:

W: 49 cm / 19.3", H: 76,5 cm / 30.1", D: 48,5 cm / 19.1", Seat H: 46 cm / 18.1"

## Product description:

This is an archetypal chair created by Form & Refine. The unusual seat shape, which was inspired by human anatomy, promotes good posture and provides excellent seating comfort. The organically shaped solid backrest gives the chair a minimalist and personal style. The combination of strong, solid legs and the Hallingdal upholstery lends the chair a surprisingly light and stunningly sharp visual appearance. The exquisite backrest is steam-bent and made from a single solid piece of wood. The upholstered seat comes in Hallingdal fabric and can be finished in a COM version (customer's own material).

## Designer's thoughts:

"With this chair we searched to balance something refined and robust at the same time. We aimed for a chair with distinct character and gave it elongated back legs that smoothly grip the curved backrest. It should also be stackable, comfortable and fit into any environment." - Herman Studio
