

Designed in 1968 by Italian architect, sculptor, and designer Angelo Mangiarotti, the Marble collection reimagines bowls and vases as elevated works of art.

Taking inspiration from the sensual materiality of stone, the collection balances out its heaviness with rounded, generous curves and sculptural silhouettes.

Whether standing alone or grouped together, the pieces can transform any dining table setting or window display into something memorable.

PRODUCT DATA

Design	Angelo Mangiarotti, 1968
Product type	Vase and bowl
Environment	Indoor
Materials	Banswara marble
