- The chair is available with or without armrests
- Chair and Armchair stackable on floor up to 6 pcs.
- Suitable for a wide variety of private and public environments
- Qualified for contract use

# PASTIS COLLECTION DESIGN BY JULIEN RENAULT

Designed for HAY by French designer Julien Renault, the Pastis series is a collection of wooden chairs, armchairs and tables built on authenticity, strength and high-quality craftsmanship, with the intention of creating timeless furniture that would last for decades. Balancing a sturdy construction with elegant aesthetics, Pastis offers a versatile series that emanates personality – for enjoying life, dining, socialising and bringing a sense of warmth and vitality to its surroundings. Available in a variety of lacquered wood types and colours, Pastis's durability and comfort makes it suited to many indoor spaces, from dining rooms and kitchens in private homes to cafés and other public environments.

French designer Julien Renault grew up near Paris before studying industrial design in ESAD Design & Art School in Reims, France, and ECAL in Switzerland. These two different educations have helped to form his approach to his work – a combination of objective and rational methods with artistic and personal freedom. Currently based from his studio in Brussels, Julien's ability to find inspiration everywhere means he is not afraid to beautify the ordinary. Convinced that all objects have a subconscious effect on our daily lives, Julien manifests the interconnection between objects and their surroundings in his designs, which he creates for a number of international brands. For HAY, Julien has produced the Pastis Table and Chair series.

Julien Renault

Pastis Armchair | Steel blue water-based lacquered ash  
Pastis Table | Water-based lacquered oak

Julien Renault's Pastis is inspired by the atmosphere of a French brasserie with beautiful woodwork and white tablecloths, which the designer imagines as the romantic space surrounding the chair.

Pastis Table and Chairs balance a sturdy construction with elegant aesthetics.

## SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
