REFRACT CONSOLE

A collaboration between multidisciplinary surfboard designer Hayden Cox and SPØ1, 'Refract' an is an innovative resin furniture capsule collection made in Australia and exclusive to Space Furniture.

Like sun through seawater, the internal textures of the resin move and refract light blending material and shape causing them to interact within their space. The stacked lineal slabs that form the console base, take cues from a wave set. Each glowing at the tip and deeping in colour as the prism expands.

REFRACT RESIN SURFBOARD

A collaboration between multidisciplinary surfboard designer Hayden Cox and SP01, 'Refract' is an innovative resin furniture capsule collection made in Australia and exclusive to Space Furniture.

Like sun through seawater, the internal textures of the resin move and refract light blending material and shape causing them to interact within their space. The stacked lineal slabs that form the console base, take cues from a wave set. Each glowing at the tip and deepening in colour as the prism expands.

This surfboard is a heavy sculpture and for display purposes only. The display block included will help to reduce the chance of tipping when on display, however we recommend placing it in an environment where it is not in the direct line of foot traffic and at risk of falling.
