

# MOORING FLOOR LIGHT

Tom Raffield

## Product Specification

Mooring Floor Light

An exposed flex traces a proud line, base to tip. From its signature curve to its filament bulb, the Mooring Lighting Range captures the barefaced beauty of tidal landscapes.

Handcrafted in sustainably sourced solid oak, the Mooring's steam bent curve arches from its oak base, while its prominent flex tethers it home. A naked bulb haloes out light, bright and striking in the dark. Use the Mooring Floor Light to illuminate specific areas or create ambiance in your space.

Juxtaposing traditional techniques with an industrial aesthetic, here function becomes feature; substance and style.

Show your design colours.

The Mooring is also available as a table lamp with red or grey flex options.
