PowerHub Pro
TA-7545U

Furniture power distribution unit with high power USB charging and universal sockets.

PowerHub supercharged

PowerHub Pro takes the PowerHub range to a new level.

The use of the latest GaN technology enables USB charging across 3 outlets up to an amazing 50 watts combined with 2 tamper resistant AC outlets.

Key features

- Provides guests with 2 easy-to-find electrical outlets and 3 USB charge ports.

- Designed for installing flush into furniture, millwork, or case goods.

- Fast-charging USB ports support a wide range of portable devices including laptops, tablets and smartphones.

- Universal power sockets accept a wide range of plugs.

- UL Certified UL1310.

- Engineered for safety with USB over current/voltage/temperature and short circuit protection.
