

BIT STOOL

Designed by Simon Legald for Normann Copenhagen

normann
COPENHAGEN

BIT EXPANDS WITH TWO NEW ADDITIONS

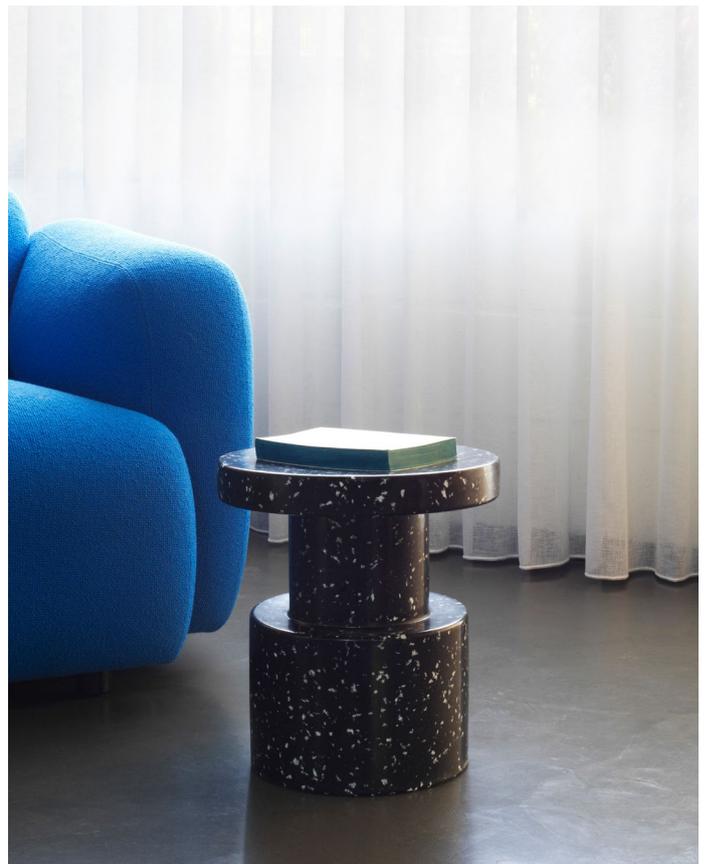

The popular, versatile stool from Normann Copenhagen is now available in two new variants and color combinations, allowing ample opportunity to add a splash of color to the home or commercial settings. The new additions Bit Stool Stack and Bit Stool Cone continues the designer Simon Legald's inspiration from monoliths and columns, and thus references classical Greek architecture but with a modern twist. The multifunctional stool's new color range of Yellow, Blue, Black/White and Red, Green, White/White provides a Bit Stool for every preferred aesthetic and interior design. Minimalistic as well as colorful.

A MULTIFUNCTIONAL DESIGN THAT IS A BIT MORE RESOURCEFUL

Bit is an aesthetically pleasing, versatile stool with countless possibilities for your home. Use Bit as a pedestal for a floral arrangement, as a side table for a lamp, or as impromptu seating for that unexpected dinner guest. A particular process, where plastic fragments are heated to a 120°C melting point, makes it possible to repeatedly reuse and reheat the material without altering its properties. The result is a stool design with a distinctive thickness and composition, making every Bit a bit unique.

Bit stool is available in ten captivating color combinations. Choose the vivacious colored versions to highlight the striking design and distinctive materials or the elegantly demure black or white Bit Stools to subtly blend in with the existing decor. With its playful shape and fascinating array of hues, Bit will bring a sense of personality to any setting. Bit stool is suitable for both indoor and outdoor environments, withstanding temperatures from -10°C to +50°C. Add some panache to the store window, lobby or hotel room or invite Bit into your home to brighten up your living room, balcony, or the children's bedroom. Wherever you decide to place it, Bit will bring a smile to your face.

CONNECTING PEOPLE AND SPACES

Since Normann Copenhagen's foundation in 1999, our ambition has been to challenge conventional thinking and make the ordinary extraordinary through great design.

By combining the craftsmanship, functionality and endurance characterized by our Danish design heritage with modern silhouettes and durable materials, we aim to create original products in a contemporary design that withstand the test of time. We believe in uniting people and spaces across the world and improving the quality of people's lives through the power of great design.

Our products combine functionality and design and accommodate the diversity of needs of modern life in residential and professional interiors alike.
