A lamp collection that elegantly unites the new and the old

Normann Copenhagen launches its new lamp collection, Cellu, comprising both a table lamp design and an enlarged floor lamp variant. The design is particularly characterized by its eye-catching proportions and classic references. The Cellu Lamp collection is a modern interpretation of the classic folded paper lampshade. The design has been brought into the present-day aesthetic with its PVC shade for enhanced durability, resting on a powder coated aluminum column and powder coated steel base, both designed with a distinctive, robust expression.

Collection Overview

Cellu Table Lamp
H: 35 x Ø27 cm

Cellu Floor Lamp
H: 168,5 x Ø49,5 cm

Product Facts EU

Description

Cellu Lamp collection is a modern take on the classic folded lampshade. The elegant lampshade made from PVC for extra durability rests on a powder coated aluminum column and powder coated steel base, both designed with a characteristic, robust expression. The column and base come in complementary color combinations, infusing the design with a contemporary, playful feel. Cellu comes as a table lamp and a floor lamp.

Designer / Year Of Design

Simon Legald / 2023

Material

PVC, Aluminium, Steel

Construction

Cellu Lamp comprises a lampshade crafted from durable PVC, positioned on a robust powder coated aluminum column and a powder coated steel base. The column and base feature complementary color combinations. Cellu is available as a table lamp and a floor lamp.
