Patti

The Patti Rug features a graphic stripe design with clean lines and tonal contrast. Hand loomed in India from premium New Zealand wool, it offers a smooth, durable surface with a plush fringe edge. The deep clover tone adds refined depth, with natural variations expected and celebrated as part of its design.

Product Details

Pile Composition 100% New Zealand wool
Manufacture Details Hand woven
Country of Manufacture India
Pile Height Approximately 12mm
Custom Production Lead-time Approximately 22 weeks + local freight lead time
Sizes Available 200 x 300cm, 250 x 350cm, 300 x 400cm, Custom Size
Care See Jardan rug maintenance guide for details. Each rug is handmade and may vary slightly in texture, colour & pattern and size tolerance of 2-3%.

Available Colours

Clover

Care Instructions

Spot Cleaning
Treat any liquid spills immediately. Place a clean cloth or unprinted paper towel directly on the liquid to absorb the spill. Following this use a clean cloth, dampened with water and dab the affected area, do not follow a circular motion, simply dab and blot. Absorb any excess moisture after cleaning with a clean dry cloth or towel. For dirt marks, such as soil, simply allow the soil to dry and vacuum. If spills or marks remain, contact a professional rug cleaning specialist.

Professional Cleaning
After time your rug will require professional cleaning. Any persistent or large stains will also require professional cleaning. Do NOT dry clean or steam clean rugs. Each Jardan rug is unique, and made of different fibres, we recommend contacting a professional rug cleaner who specialises in hand made rugs or contact Jardan for a recommended specialist cleaner.

Shedding & Loose Fibres
All rugs may shed and have loose fibres. Shedding will take place mostly in the 1–6 months of the rugs lifetime, but will slow over time. High traffic areas may always have a small amount of shedding. Simply vacuum any shedding fibres. For loose threads or ends - do not pull, simply clip them carefully with fabric scissors.

Care & Maintenance
The positioning of your rug will have an effect on the longevity and appearance of your rug over time. Avoid direct and continuous exposure to sunlight. Vacuum regularly to prevent dust and crumbs from settling into the pile. Rotate rug occasionally to equalize wear.
