

Fiber Lounge Armchair Tube Base

“One of the most difficult and noble disciplines of design is to create simple, well-functioning, and almost ordinary objects that nevertheless have a strong identity. We designed the Fiber Lounge Soft Armchair to do just that. The chair’s sculptural language, paired with its wide and ultra soft seat, refuses to compromise on comfort and invites the user to sit for hours. The Fiber Soft Armchair enhances the idea of grand comfort through soft wadding and upholstery. The chair’s inner shell uses recycled plastic for a conscious and innovative perspective on materials.”

Description

The Fiber Lounge Armchair features a generously spacious seat and embracing curves that embody the elegance of the Fiber Series in a softer, more inviting form. The chair’s shell is made from 100% recycled plastic, supported by a tube base in powder-coated steel.

Tube Base

Material

Shell - Without Upholstery:

The shell is made using 100% recycled plastic reinforced with strength-improving additives and mixed with up to 25% FSC™- certified (FSC-C028824) wood fibers. The recycled plastic comes from post-industrial waste. Due to the shell's partly natural material, slight color variations can occur.

Shell – Upholstered Variants:

The shell is made using 100% recycled plastic reinforced with strength-improving additives and mixed with up to 25% wood fibers. The recycled plastic comes from post-industrial waste. Shell can be upholstered with textile, imitation leather, or leather. Leather from selected premium leather suppliers.

Shell – Front upholstered variants:

The shell is made using 100% recycled plastic reinforced with strength-improving additives and mixed with up to 25% wood fibers. The recycled plastic comes from post-industrial waste. Due to the partly natural material of the shell, slight color variations can occur. The shell can be front upholstered with textile, imitation leather, or leather, which is from selected premium leather suppliers.

Base:

Tube base in powder coated steel.

Please note that the Fiber Chair with recycled plastic will be available in North America during 2024.

Therefore, the North American versions are not EU Ecolabel Certified.

Cleaning & Care

Textile: For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing them with a lint-free cloth or sponge wrung out in clean, warm water. Clean by dabbing with soapy water made with a bit of dish soap if necessary. Finally, dab the surface with clean water. We advise visiting Kvadrat.dk, Nevotex.dk, Maharam.com, or Gabriel.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Imitation Leather: Clean with lukewarm PH-neutral, soapy water and a soft cloth or soft brush. Do not use solvents or chemical cleaners, but cleaning can be done with alcohol-based cleaners. Finally, wipe with a damp cloth afterward.

Leather: As a natural material, leather requires looking after. If you care for the leather in the right way, it will become even more beautiful over time. Refine Leather, Easy Leather, and Endure Leather: Regularly clean leather with a dry cloth. Treat the leather at least four times a year using only special leather treatment products. Visit ca-mo.com further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water otherwise the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid chemical products, such as saddle soap, leather cleaners, or household products.

Base: Clean with a moist cloth. If necessary, use a little dish soap on the cloth.
