SCULPTURAL SHELF CRAFTED FROM SOLID STONE

Sten Shelf is a new sculptural addition to Normann Copenhagen's collection of storage solutions. As the name suggests, Sten is a decorative shelf made entirely of stone. The design is unique in its simplicity, consisting of a single stone slab resting on two rounded shelf brackets, also crafted of stone. Sten is both functional and sculptural, serving as an artistic element on the walls while also providing a practical storage solution for books, vases, or still life arrangements.
