PiXAPRO
ORBIT600

How to use your PIXAPRO ORBIT600 Turntable

1. Plug the power cable into the mains power ❶

2. Switch on turntable by pressing the "I" on the switch ❶.
(Please note: the turntable will turn on but will not spin at this stage)

3. Press the "<" or ">" directional buttons on the control panel ❸ to start the table, the turntable will start moving left/right.

3. You can increase the speed of the turntable by pressing "+" and reduce the speed by pressing "-" on the control panel ❸ . (The table can rotate at three different speeds.)

4. You can change the direction of the turntable by pressing "<" on the control panel ❷ , for it to turn left and pressing ">" for it to turn right.
(Please note: there will 3 seconds delay in the table changing direction)

5. You can pause, control the direction and speed on the provided wireless remote   .
Please ensure that the remote is pointing toward the control panel on the turntable as this is where the remote sensor ❹ is located.
Please Note: The Power button must be switched on in order to remotely control the turnatable by remote.
