Operation Guide

Take the Smart Bracket II S-type Speedlite Bracket (Bowens mount) as an example:

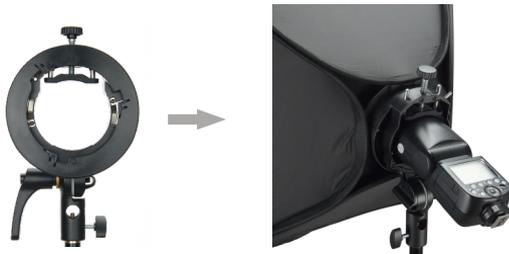

- Mount the flash body.

- Loosen screw of the handle to adjust the tilt of the bracket.

- Mount speedlite softbox if you have the version that comes with a softbox).

- Mount any Bowens S-Type Modifiers

- Mounted Horizontally

- Mounted Vertically

- Fit for size-variable speedlites and barebulb flashes

Li-ion580 II, Li-ion350 II, PIKA200 Series and other Speedlites:

Install various of camera flashes e.g. Li-ion580II series, Li-ion350II series, PIKA200 Series pocket flash with speedlite or Bare-Bulb head, etc.

GIO1, PIKA200 Series with Round Head:

Take out the first layer: install GIO1 round head flash, PIKA200/PIKA200 Pro pocket flash with round flash head, etc.

CITI400Pro:

Take out the second layer: install CITI400Pro outdoor flash.
