

How To Assemble The PIXAPRO[®] Parallelogram Flamingo Stand

Step 1:

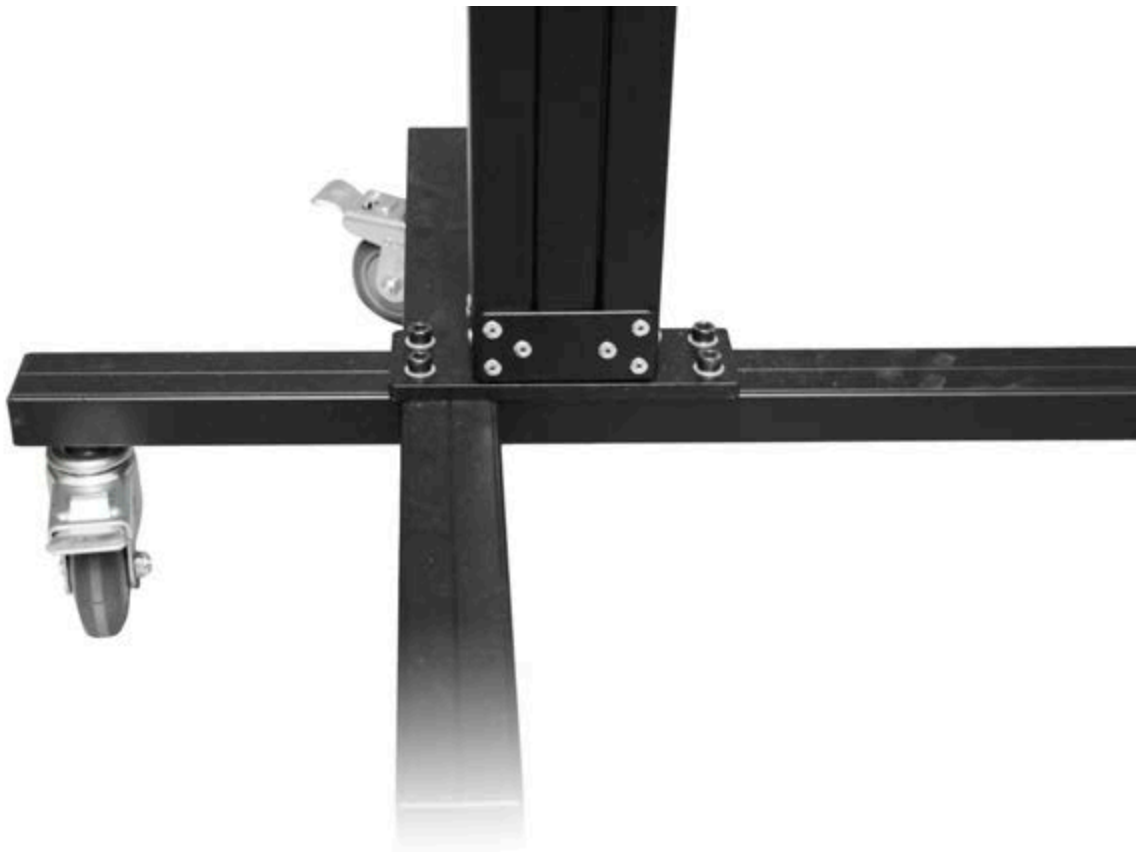

Take all of the sections with the wheels, and insert them into the central bar as shown in the photographs below.

Once all of the wheeled bars are in place, secure the bars together using the supplied Allen key.

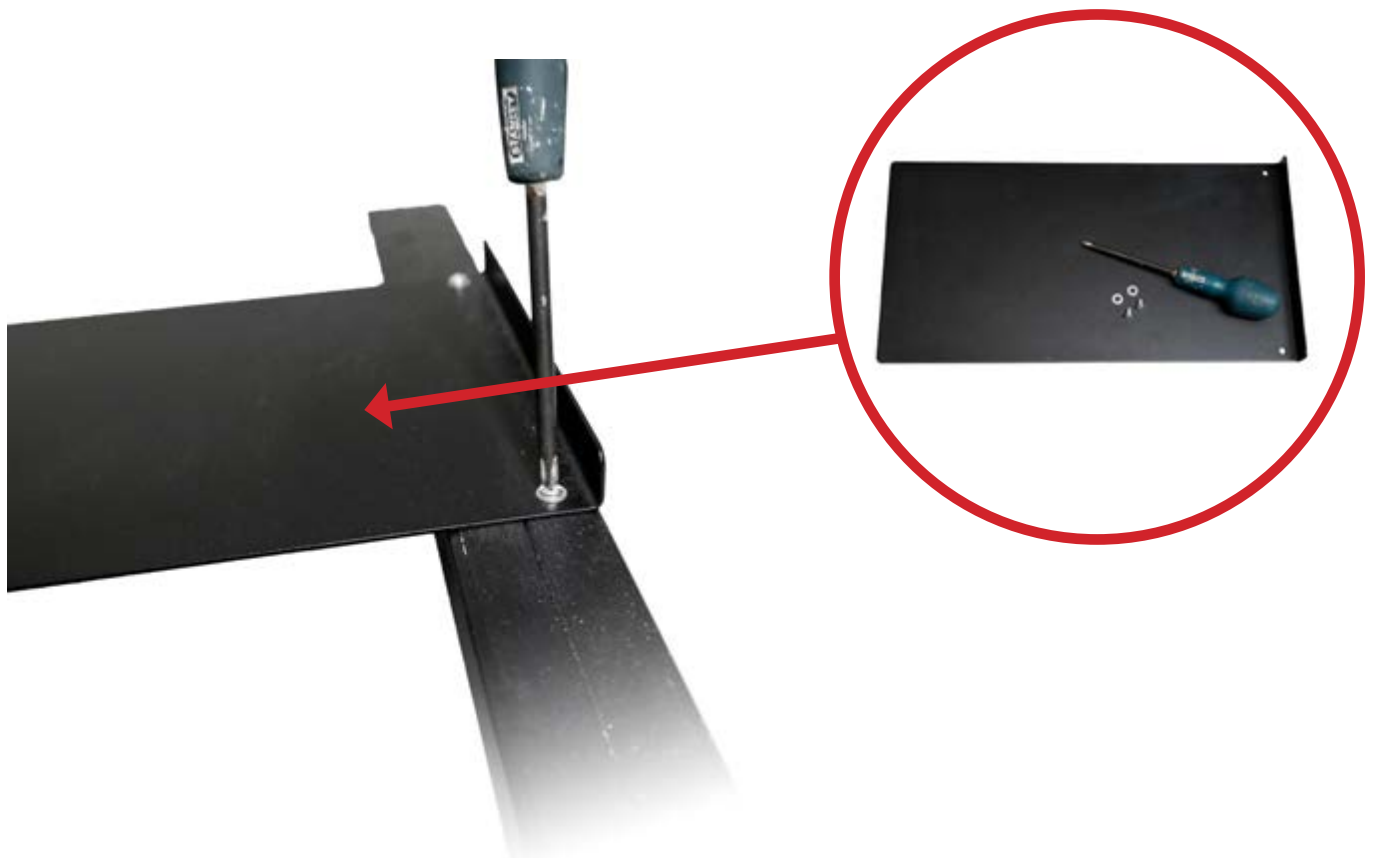

Step 2:

Now that the base is complete, attach the main central column to the base, and tighten the screws using the supplied Allen key

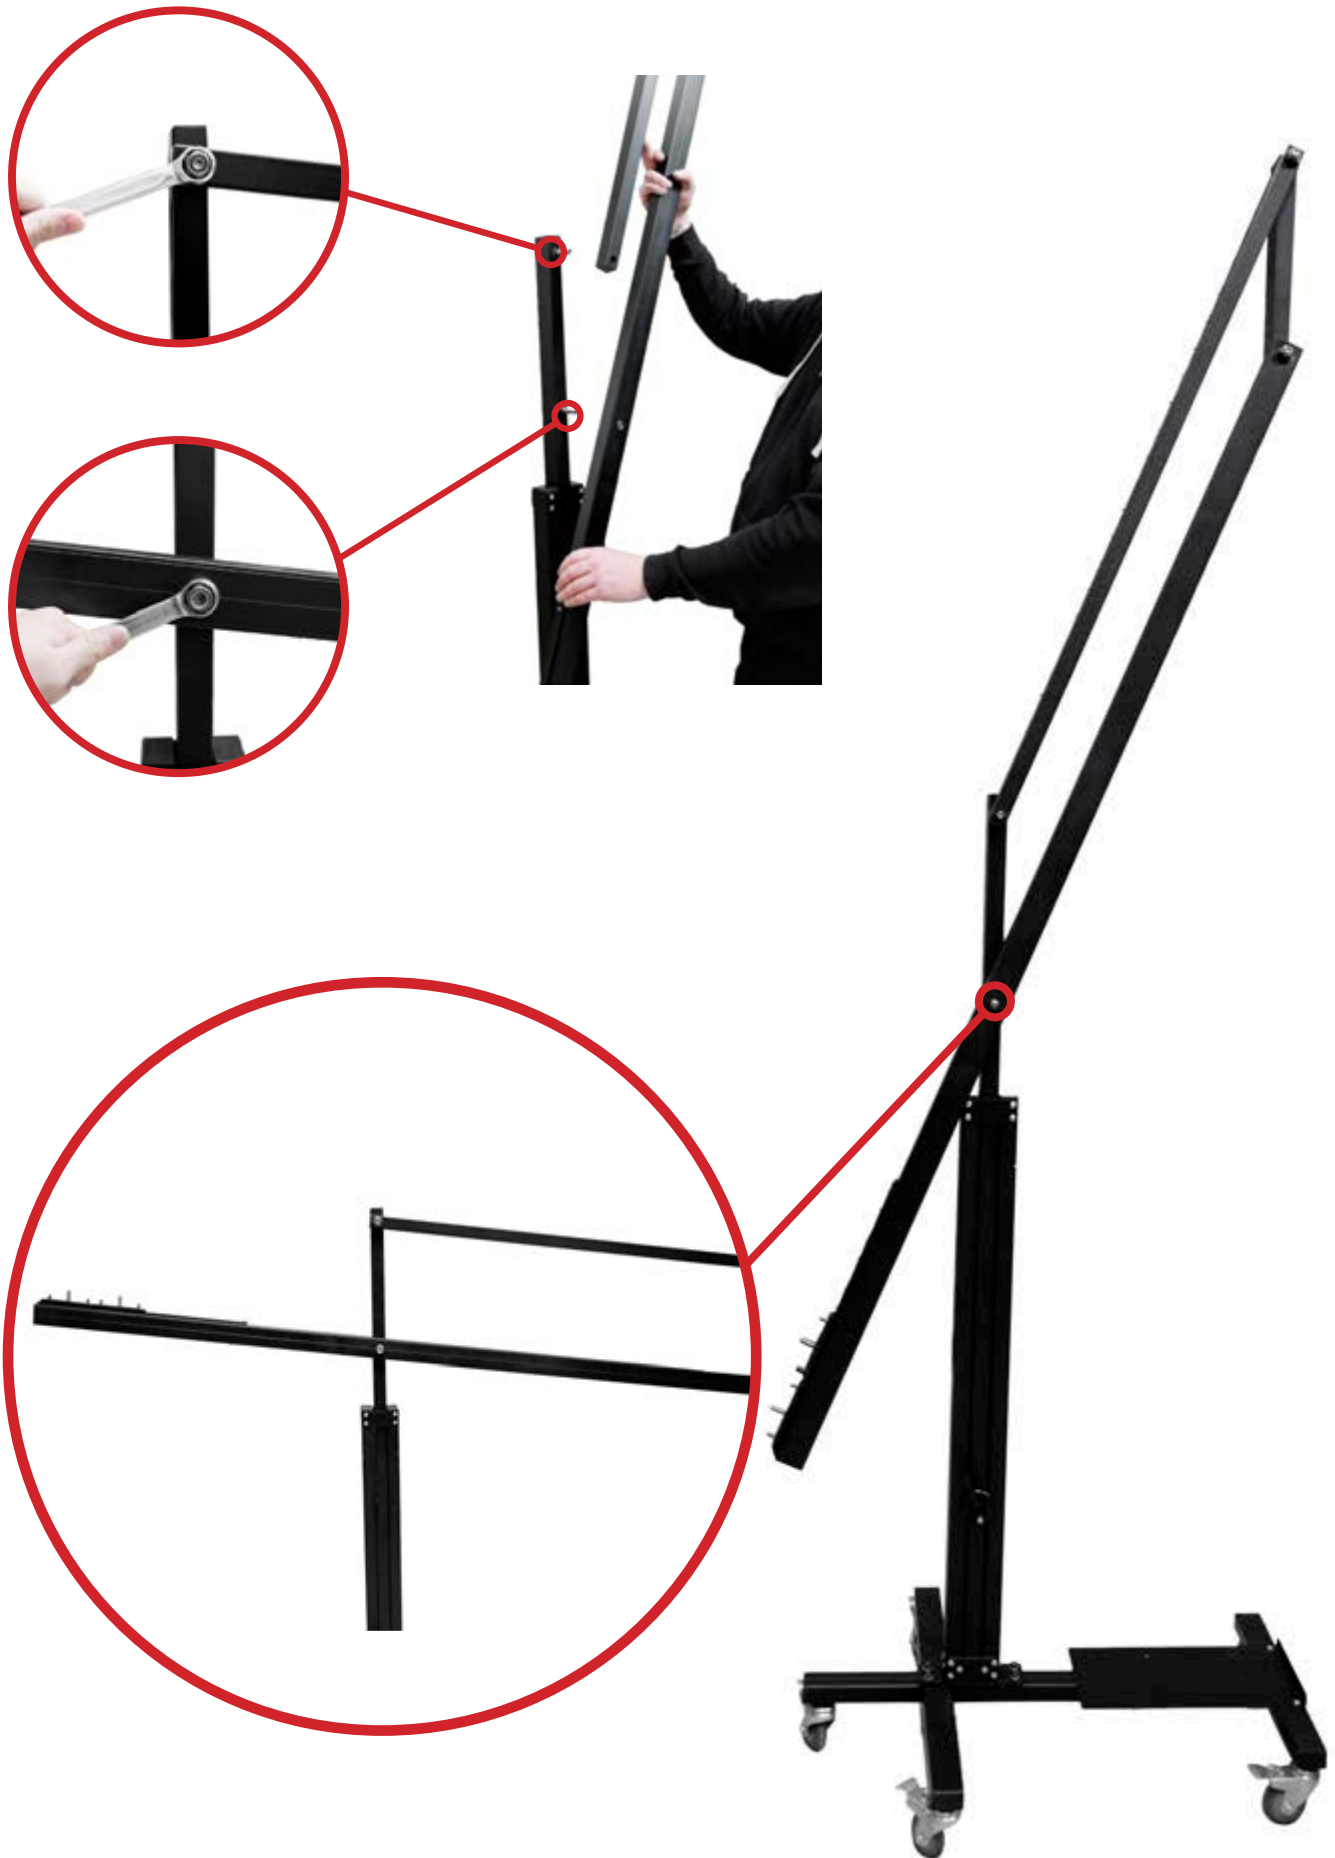

Step 3:

Now screw the Battery Shelf onto the other side of the base as illustrated below
(Requires Philips Head Screwdriver - Not Included)

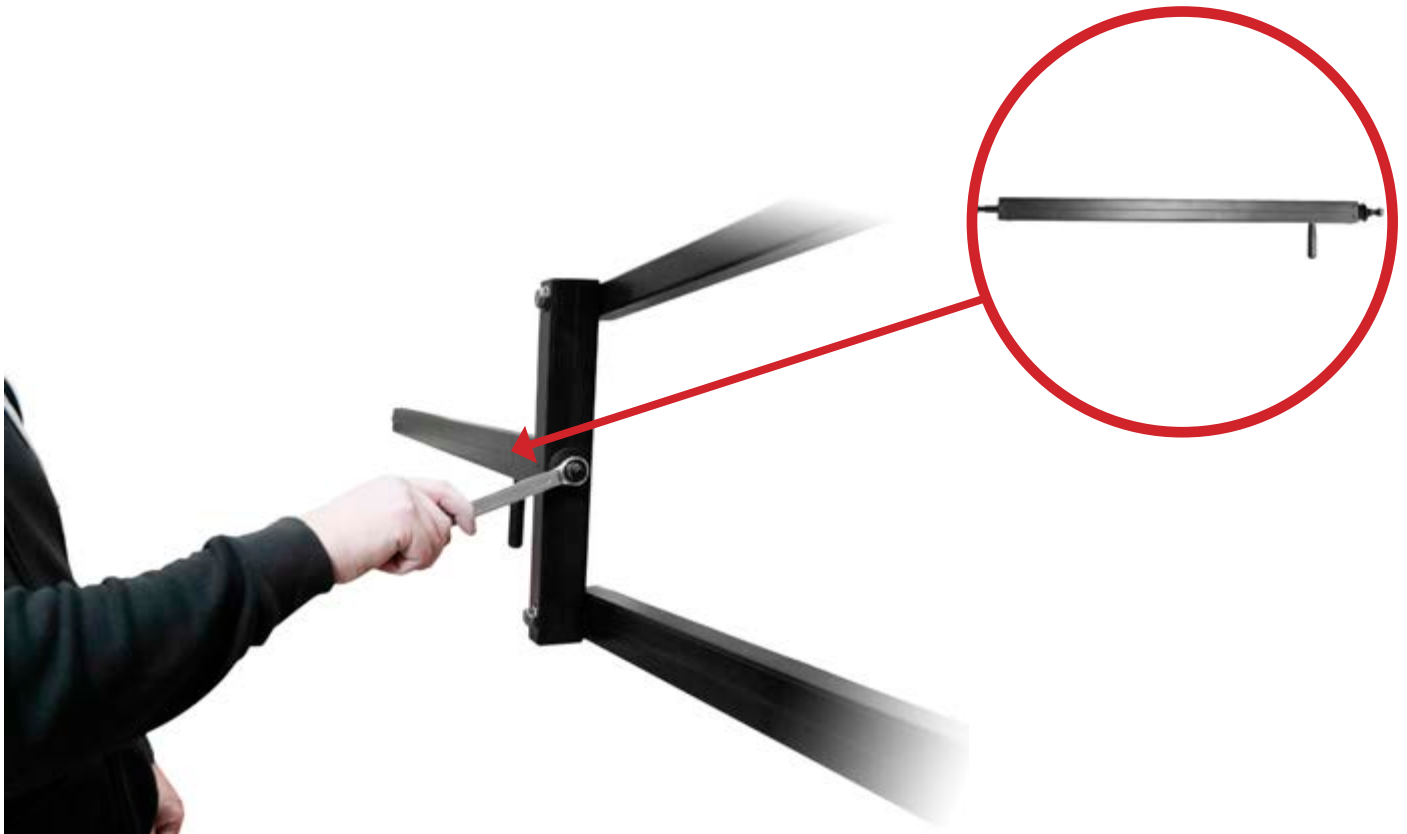

Step 4:

Now mount the main boom arm to the central column as illustrated below using the spanner provided.

Step 5:

Now attach the mounting arm to the parallelogram pantograph mechanism using the supplied spanner as illustrated below.

Step 6:

Now that the main frame of the PIXAPRO® is complete, all that is left for you to do, is to add the counter-weight sandbags to the back of the boom...

Step 7:

... and your PIXAPRO® Parallelogram Flamingo Stand is now ready for use.
