

How to use

1. Separated Hot and Cold handle control the mixer water.
2. Rotate and adjust the cold and hot water reach to 0-90°.
3. Achieve the proper mixed water temperature by adjust hot and cold water.

Maintenance & Care

To avoid damage it is necessary to consider the below guidelines.

1. To clean the mixers surface use clean hot soapy water. ONLY use soft fabric cloths.
2. DO NOT use cleaning solutions that contain hydrochloric acid, formic acid, concentrated caustic soda, chlorine or acetic acid as they can cause considerable damage.
3. DO NOT use any coarse cleaning powders or brushed to clean the mixer.
4. If there is irregular water pressure & water flow is reduced, please check if the spout is clean, if not brush the spout after vinegar soaking.

IMPORTANT NOTICE

All products must comply with regulations of Local Water Authority as contained in their by-laws.

If the product is not supplied with balanced pressure, the mixer will not function properly. Non-return valves should be fitted on both the hot and cold feeds as close to the tap as possible (non-return valves not provided).

Warranty Requirements

For full warranty terms and conditions please visit the warranty section of our website. Please pay attention to the below. Failure to do so will void your warranty:

1. Do not use acid cleansers
2. Do not use abrasive cleansers
3. Do not use abrasive cloths
