

## HOW TO PLAY

- 1** Deal 6 Laugh Tokens to each player.
- 2** The funniest person draws a card first. They are now the Joker. The Joker silently reads the card to themselves.
- 3** The Joker now has 30 seconds to do whatever is on the card, doing their best to make the others in the group laugh. The Joker may interact with any of the other players, and the Joker is allowed to laugh.
- 4** If any of the other players laugh, they must put one of their Laugh Tokens into the center of the play area.
- 5** At the end of the round, the Joker takes all of the Laugh Tokens from the center. The person to the Joker's left now becomes the new Joker and draws a card.
- 6** Once a player runs out of tokens, the game ends and the player with the most tokens wins!
