EnVision® plant-based cut level **A1** glove with microfoam palm coating

The Tilsatec EnVision® glove range sets a new standard in environmentally friendly cut gloves that don't compromise on comfort, dexterity or durability. The 55-1825 cut level A1 glove is certified 55% bio-based content awarded Eurofins bronze badge and manufactured using a unique combination of plant and bio-based yarns resulting in lower CO₂ emissions making it a credible sustainable alternative to your current hand protection.

Product Specifications

Sizes	6(XS) – 11(2XL)
Color	Green / Black coating
Cuff/Wrist	Knit wrist
Gauge	15 gg
Packaging	12 pairs/paper band Sizes 6, 7, 11 72 pairs/case Sizes 8, 9 & 10 120 pairs/case

Applications / Industries

Size	6 XS	7 S	8 M	9 L	10 XL	11 2XL
Cuff						

Performance

ANSI/ISEA 105-2024

EN388: 2016

Bio-based Dyneema® is the first ever bio-based ultra-high molecular weight polyethylene fibre, reducing reliance on fossil fuel based resources. All bio-based Dyneema® fibres have the exact same characteristics and performance as conventional Dyneema®. Made from trees (a bi-product of pulp and timber) this is known as the mass balance approach, certified by ISCC (International Sustainability & Carbon Certification).

Carbon emissions reduced by **>600g** for every pair of gloves made with **Bio-Based Dyneema®**, when compared to Generic HMPE yarn.
