

53-9121

Medium weight cut level A9 sandy nitrile palm coated glove

The 53-91 range is made using the latest RhinoYarn core utilizing ultra-fine gauge specialized tungsten steel. Delivering 360 degrees maximum A9 cut protection to ANSI 105: 2024, high abrasion resistance and puncture protection, it's built for the toughest of environments.

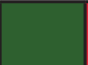

A new hi-viz orange safety indicator to the thumb crotch and knit wrist allows you to easily see staff are protected to the maximum level at a glance. The sandy nitrile palm coating provides good dry and oil grip and the additional reinforcement to the thumb extends the life of the glove.

Product Specifications
