

58-1924

Ultra Light Weight Cut Level A1 Glove with a Microfoam Nitrile Palm Coating

The Tilsatec anti-static ESD 58-1924 gloves, designed with a combination of soft conductive materials and synthetic fibers. This unique design enhances conductivity and prevents static electricity from accumulating. The gloves safely discharge electrostatic build-up, protecting both the wearer and sensitive products.

Tested to meet EN 1149-2:1997 and EN 16350 standards, these gloves are ESD antistatic and touchscreen compatible. They are ideal for use in electronics, light assembly, finishing, and inspection work.
