

NIBCO®

PRESS

PRESS FORWARD

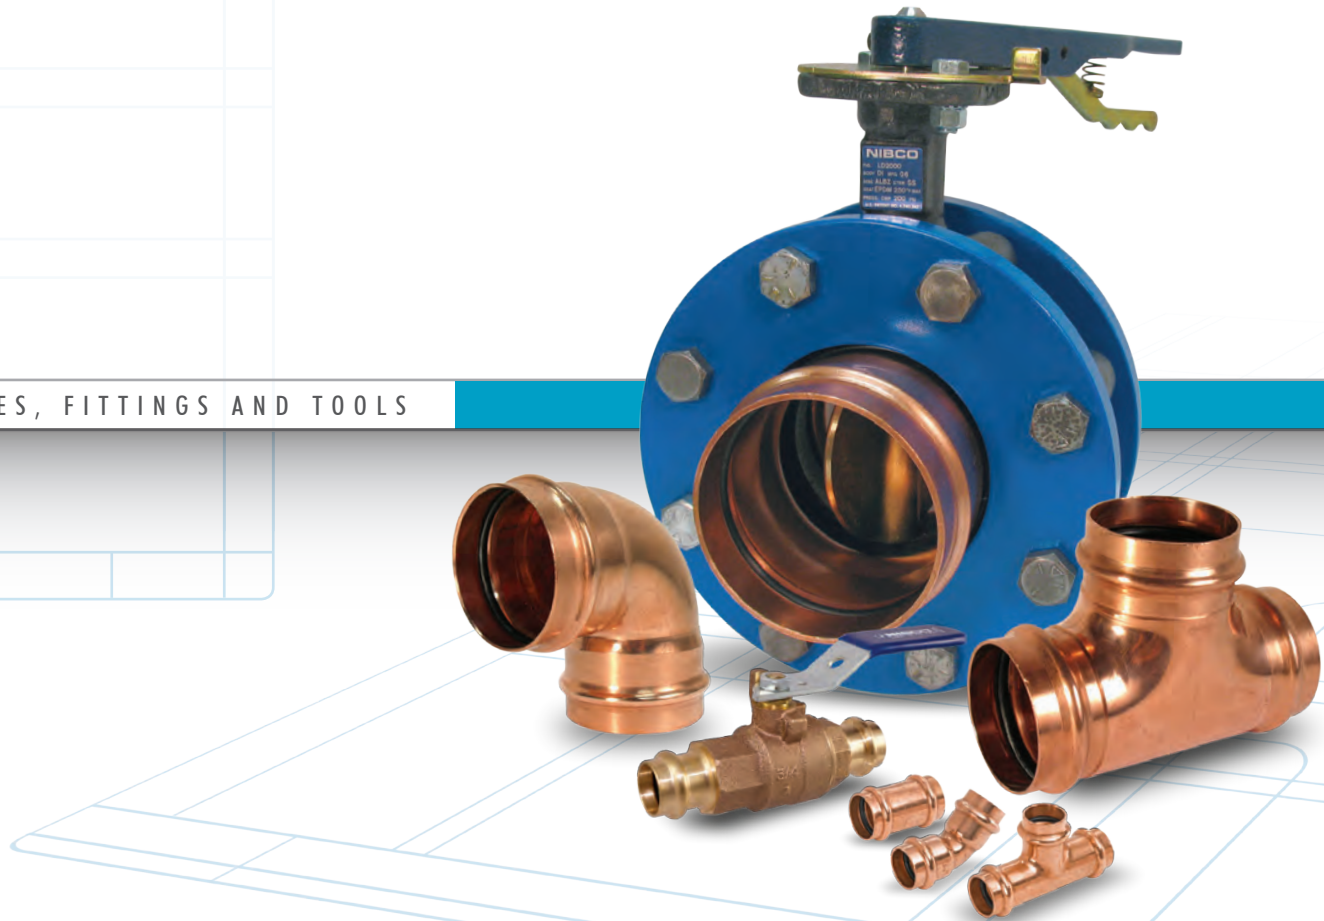

Drive your business forward with NIBCO® Press System and its leak detection feature allowing you to quickly identify uncrimped connections during system testing.

Only NIBCO offers a single-source package of press valves, fittings and tools, saving you valuable time on job sites and allowing you to **Press Forward**.

Why Use Press?

- Lower total installed costs for the entire plumbing or HVAC system
- Systems can be dry-fit before crimping
- Making secure, consistent and leak-proof connections is a smooth, efficient process
- No leaks from inadequate solder joints

VALVES, FITTINGS AND TOOLS

Press valves and fittings install easily for a perfect fit every time, and up to 95% faster than solder.

Flame-free installations are safer – great for occupied spaces.

Perfect for wet installations when pressed for time.

NIBCO®

PRESS

PRESS FORWARD

Engineered specifically to install our press products, NIBCO® press tools are lightweight, ergonomic, convert easily to electric power, and include LED lights to illuminate work areas. The large press tool is the only tool in the industry that can crimp every brand of fittings or valves.

Backed by more than 109 years of experience, our unparalleled customer service ensures you'll have the products and tools you need – when you need them – saving you time and money.

The NIBCO Press System will increase your productivity and profitability.

VALVES, FITTINGS AND TOOLS

Performance

- New leak detection feature ensures uncrimped connections are found during system testing
- Flame-free installation is safer than soldering or brazing
- Perfect for wet installations when pressed for time
- Consistent joint quality means fewer callbacks and reliable performance

NIBCO Advantage

- Industry Leading Selection of Press Valves
- Most fittings manufactured in the USA from domestic and imported pure copper
- 2½" - 4" fittings have the same lay lengths as NIBCO® solder end fittings – no need for system redesign
- 2½" - 4" fittings fit tightly – allowing for easy, one-person install
- Universal large tool works with all valve and fitting brands of press
- Exclusive AC adapter is convenient for prefabrication, reducing down time
- Uniform crimp of 2½" - 4" fittings provides for straight piping runs
- Save time with our single-source package of valves, fittings and tools
