Medium weight cut level A6 latex fully coated thermal winter glove

The medium weight cut level A6 thermal winter glove is designed for safety and comfort in cold environments delivering high mechanical protection from cuts, puncture and abrasion.

A specialized aerated lining retains body heat, keeping hands warm and productive. The full-dip latex coating creates a barrier against liquids, while the sandy latex palm provides superior grip in wet and dry conditions.

Certified to EN511 (contact cold level 1) and EN407 (contact heat level 2), with an impressive A6 cut resistance, these gloves are an outstanding choice for industries facing extreme temperatures and mechanical risks, ensuring comfortable all-day wear.

Product Specifications

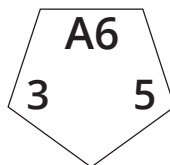

Sizes	6(XS) – 12(3XL)
Color	Black liner / Black and blue coating
Cuff/Wrist	Knit wrist
Gauge	13 gg
Packaging	6 pairs/paper band, 72 pairs/case

Available Sizes & Cuff Colors

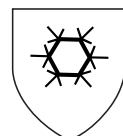

Size	6 XS	7 S	8 M	9 L	10 XL	11 2XL	12 3XL
Cuff							

Performance
