

ACACIA SERIES

Natural Wood Tables

General Installation Guide

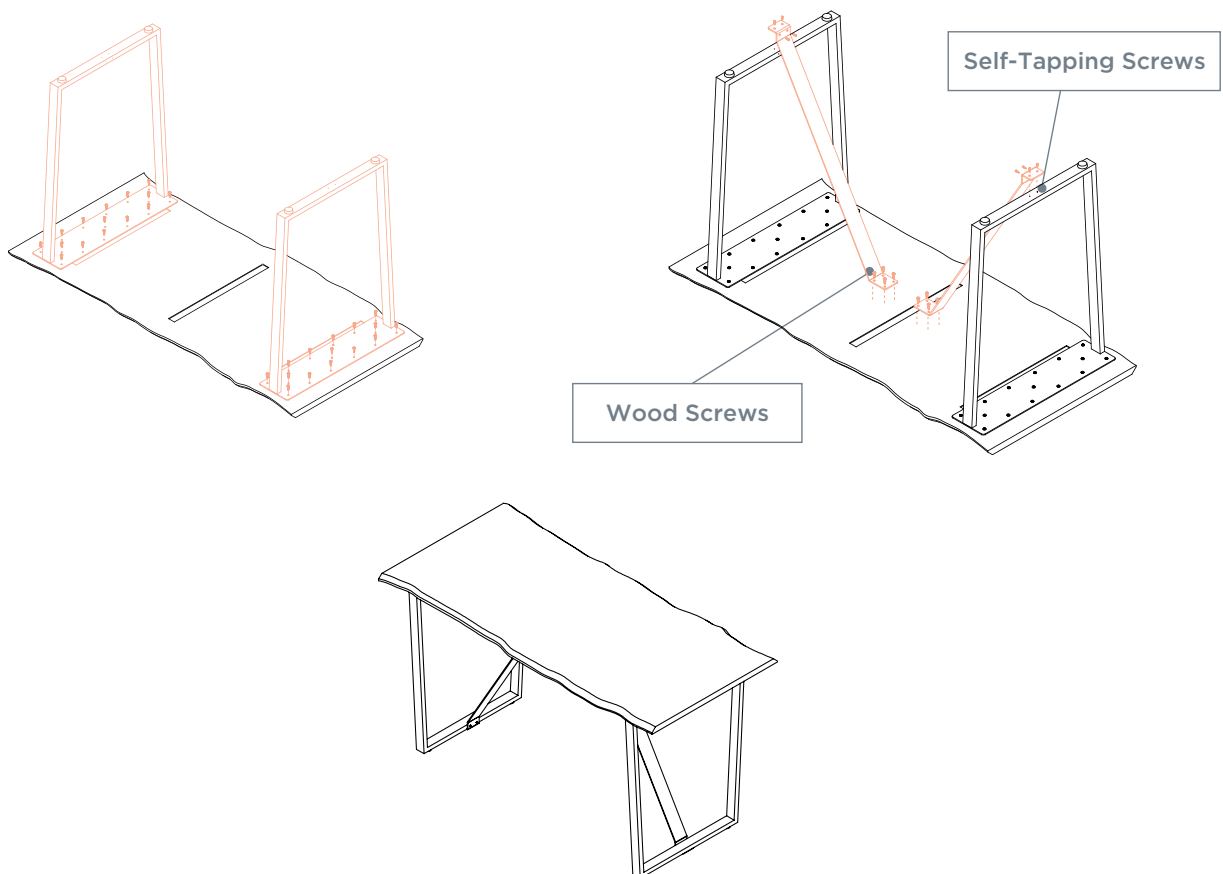

LEG INSTALLATION

Place tabletop with bottom facing up on a soft surface to avoid scratching the table. Acacia tables come with pre-drilled holes for installation. Align legs with pre-drilled holes and secure with provided screws.

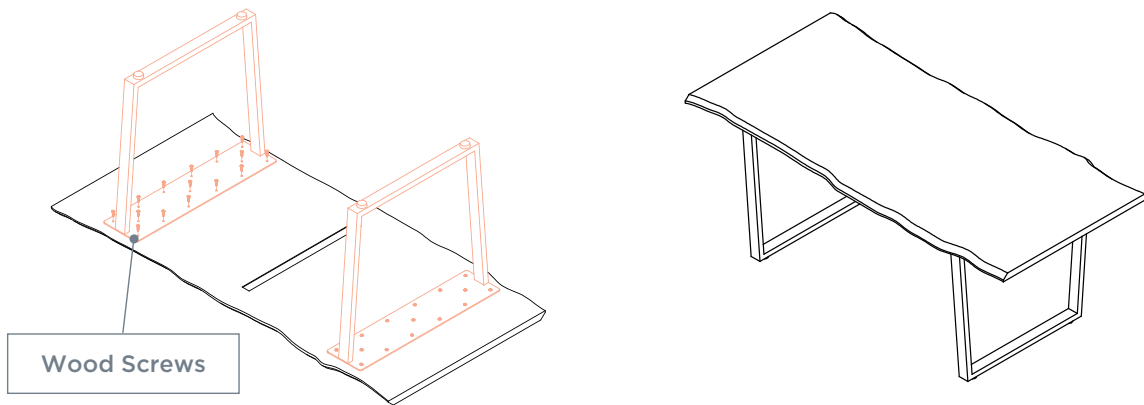

a) STANDING-HEIGHT ANGLED SLEIGH LEGS WITH SUPPORT BRACES

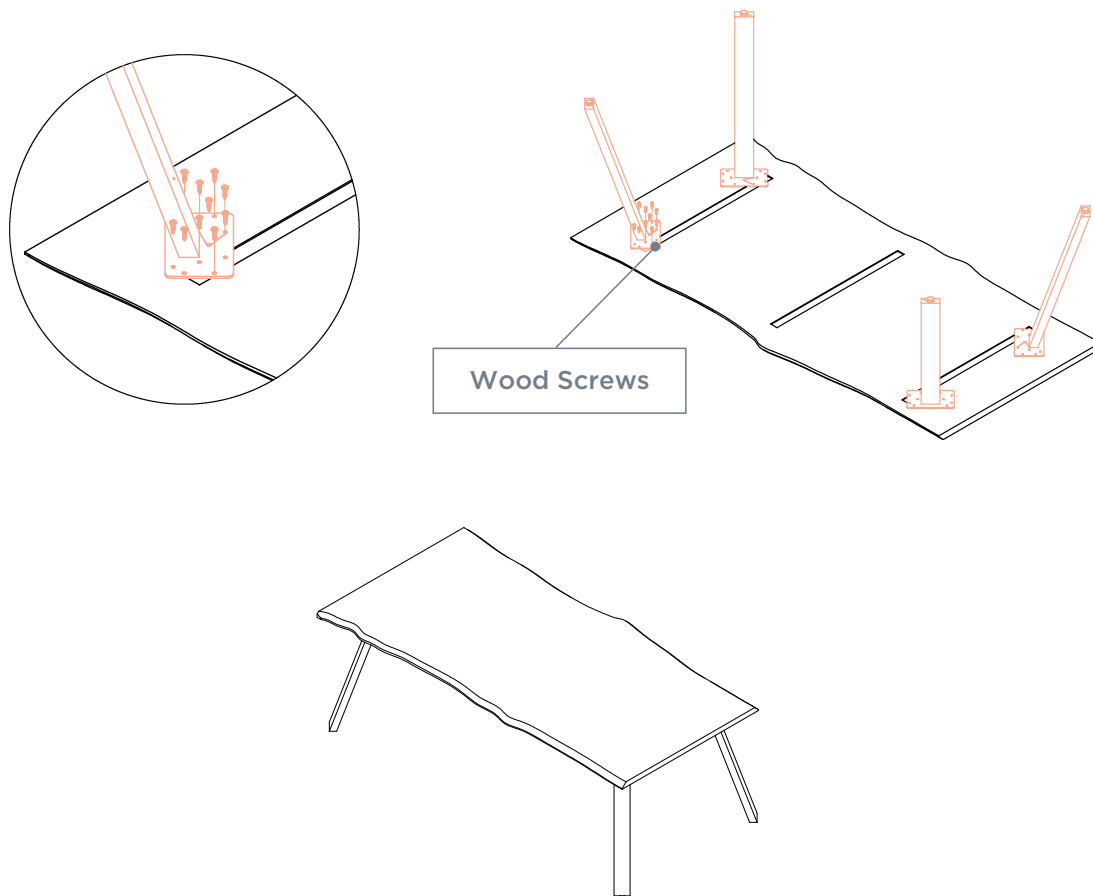

First, align leg and brace pilot holes to surface pre-drilled holes to identify the location of self-tapping screws on bottom of leg.

b) SEATED-HEIGHT ANGLED SLEIGH LEGS

c) ANGLED POST LEGS

2-PIECE SURFACE INSTALLATION

Place tabletops with bottoms facing up on a soft surface to avoid scratching the table. Lay the joining hardware into the slotted areas and attach flat brackets 1.5 inches from surface edges. Align leg and brace pilot holes to surface pre-drilled holes to identify the location of self-tapping screws on bottom of leg. Secure with hardware.
