⭐⭐⭐⭐⭐ **Extremely satisfied**

I used this with a small group of students who were having difficulties with sight word memorization. We met each day as a small group and I needed to have a variety of activities, especially since the group was below grade level and very frustrated. This bingo game was perfect for a fun way to review the sight words that the students needed help with and we were able to use the game frequently throughout the practice time frame.

⭐⭐⭐⭐⭐ **Extremely satisfied**

After playing this the 1st time, my students always asked to play it again. I love that it's editable and very easy to create the BINGO cards.

⭐⭐⭐⭐⭐ **Extremely satisfied**

My students absolutely LOVE Bingo, and this was a great way to practice sight words in both whole group and small group instruction!

Would this file enable me to insert a picture instead of a word?

Unfortunately, the way it is set up, you can only enter text (not photos).

What do I need for the autofill to work?

All you need is the Adobe Reader software (which is FREE!) on a desktop computer or laptop.

Do I need a certain font on my computer for this to work?

You do NOT need a certain font! All you need is this resource and the FREE Adobe Reader software!

What is the maximum number of letters that a word can be?

You can use any word, but as the length of the word increases, the front size decreases.
