★★★★★ Extremely satisfied

Excellent resource! My kindergarten kiddos enjoyed the color by coin which they did as a review after we worked with each coin and as a final review.

I have used these Color By Coin pages a lot. I use them for morning work and for students who finish assignments quickly. My students love coloring and they are practicing identifying coins. Great Resource!

★★★★★ Extremely satisfied

This is a great collection of color-by worksheets that work on both Identification and Counting coins. I like that it has the front and backs of the coins as well as a "cheat-sheet" for students that has the name of the coins, a picture of both the front and back of the coin, and the amount. It really increased my students' ability to do these independently!

Students used with

6th, 7th, 8th grades

Primarily students on the autism spectrum, with learning difficulties, and with mild to severe disabilities
