These are fabulous! My students love using these and I love seeing the moment when they 'discover' the letter hidden in the pattern. The first time they realized this was the best but now they're always excited to see what letter they'll find. My higher students are starting to find the letter before they color now that they know that there is a letter. I let them 'pick their own colors' and color the crayon at the top the color they want (in part because the 8-crayon boxes we have don't include pink!) and this works well for them, especially for my kids who can't read the color names.

My daughter loves color by number sheets, so once we saw these, she had to have them! Great way to reinforce letter identification while having fun!

My children love finding all of the letters and coloring them to match. This is perfect for letter identification, color word matching, and fine motor skills. I used this in the morning for my children when they come in to the classroom.
