★★★★★ Extremely satisfied

Very easy to edit and add the sight words we are currently working on. I was able to differentiate based on different levels and keep everyone on task and engaged.

My students used this as a fun Friday activity around the holidays to review Red Words in small group. This allowed them to see the word and I had them spell the word as they colored them for more practice. The pictures were super easy to edit and make it work specifically for what I needed.

Leading up to the holiday break, I used this with my students for morning work or for early finishers. I added in high frequency words that we were focusing on so pairing learning with colouring and a holiday activity made it so fun for them! Thank you!
