★★★★★ Extremely satisfied

Thank you for this resource- it was used in my 2/3 Canadian classroom with a variety of different learning needs while a sub was in the class as I had a emergency illness. I appreciate you making this.

Very satisfied

I used this worksheet in my literacy centers. I LOVE that I was able to edit the sheets to my student's needs. I made a different worksheet with the sight words for each reading group in my classroom. It's an easy way to differentiate! Thank you!

Extremely satisfied

I love that this is editable and that I could change up the sight words each week. I also let the students color their sight words while I was giving running records. They loved this and it kept them busy as I was assessing! Thank you!

Frequently Asked Questions

What do I need for the autofill to work?

All you need is the Adobe Reader software (which is FREE!) on a desktop computer or laptop.

Do I need a certain font on my computer for this to work?

You do NOT need a certain font! All you need is this resource and the FREE Adobe Reader software!

Is this product available in a bundle?

YES!!! Click [here](#) for the Color by Code BUNDLE that includes 299 pages!

Can I change the size of the font that automatically generates onto the page?

No, you are not able to change the font size. The font size automatically adjusts based on the length of the word. If this is not working, that means the resource is not being opened in Adobe. Open in Adobe, and you're problem will be solved!
