★★★★★ Extremely satisfied

My students loved using this resource during our reading center time to celebrate Valentine's Day. They got right to work and were so engaged. I also liked that I could edit this resource to put in the sight words I want my students to continue practicing.

## Editable means you can:

✓ change the title of a page

✓ all your texts will autofill

✓ differentiate to meet students' needs

★★★★★ Extremely satisfied

These are my FAVORITE resource! My school uses the Jan Richardson word lost which is so hard to find on most color by sight word activities. I love that I can edit these to my classrooms specific word list!

# Frequently Asked Questions

What do I need for the autofill to work?

All you need is the Adobe Reader software (which is FREE!) on a desktop computer or laptop.

Do I need a certain font on my computer for this to work?

You do NOT need a certain font! All you need is this resource and the FREE Adobe Reader software!

Is this product available in a bundle?

YES!!! Click [here](#) for the Color by Code BUNDLE that includes 299 pages!

Can I change the size of the font that automatically generates onto the page?

No, you are not able to change the font size. The font size automatically adjusts based on the length of the word. If this is not working, that means the resource is not being opened in Adobe. Open in Adobe, and you're problem will be solved!
