★★★★★ Extremely satisfied

Students have loved the color by code and they love emojis. This makes a good review for the heart words we have learned.

★★★★★ **Extremely satisfied**

I have been using this for spelling words and sight words for my students. They love trying to figure out what the picture will be and I love the extra practice they are getting. Super easy to use.

Students used

2nd grade

Primarily students with emerging bilingual/ESOLs/ ENLs, and learning difficulties

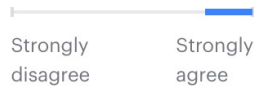

★★★★★ **Extremely satisfied**

I love this resource! It's so versatile! I've used it for sight words, addition and number recognition. I appreciate that you can just type the information you want to use once and it auto-generates in all the correct spaces. Its so quick and easy to use and the students enjoy them.

★★★★★ **Extremely satisfied**

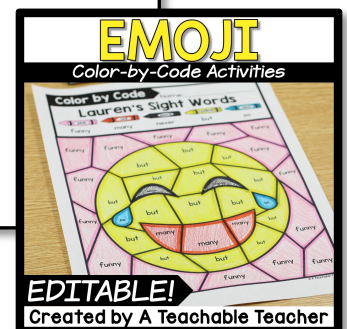

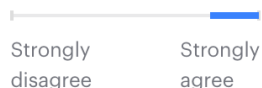

My students loved the practice this worksheet provided. It kept them engaged and allowed them a brain break each time they finished a problem!

Frequently Asked Questions

What do I need for the autofill to work?

All you need is the Adobe Reader software (which is FREE!) on a desktop computer or laptop.

Do I need a certain font on my computer for this to work?

You do NOT need a certain font! All you need is this resource and the FREE Adobe Reader software!

Is this product available in a bundle?

YES!!! Click [here](#) for the Color by Code BUNDLE that includes 299 pages!

Can I change the size of the font that automatically generates onto the page?

No, you are not able to change the font size. The font size automatically adjusts based on the length of the word. If this is not working, that means the resource is not being opened in Adobe. Open in Adobe, and you're problem will be solved!
