★★★★★ Extremely satisfied

My students enjoyed reading this on their own. I liked that at the top of the paper were the word families words then came the sentences. They could do the questions at the bottom of the page on their own. I enjoyed sitting back and watching them complete their work.

I love all of the resources by a Teachable Teacher! So glad I found this resource and many more of hers. I like how these are laid out and easy for my students to understand what to do. I think these are a great practice and are something that I am able to pull out very quickly to work on with students in the morning or during small group time. I have even sent them home as extra practice for students.
