I LOVE LOVE LOVE this and so do my students. It's awesome to practice the strokes that go with the letter. Thank you for such an awesome resource.

This product is perfect for students who are learning to write. A Teachable Teacher very thoughtfully incorporated warm-up activities that give students the fine-motor practice they need. I used it the two years that I taught kindergarten. I'm using again this year as the school's writing specialist/interventionist, in both kindergarten and first graders who need intervention.

I love this so much! I have seen many resources that have the pre writing strokes but this one is the best because it has them combined with the letter practice! Thanks!!!

I love this product for the beginning of the school year. It is engaging and simple for the children to figure out on their own while helping them to build their handwriting skills.
