★★★★★ Extremely satisfied

I really liked this resource compared to the others because it has different ways of making one number all in one card. It's perfect for our K-1 students to use as reference.

# Frequently Asked Questions

Will you be adding numbers to 50?

This resource is currently complete and I will not be adding more numbers.

Do you have the posters without the touch spots on the number?

I do not have the posters available without the touch spots.

Is this resource an editable PDF?

No, this resource is not editable.

How can I use this resource with my students?

You can use this resource by displaying them on the walls in your classroom. You can even print them individually for students to put in a binder or folder to reference back to when they need!
