19 slides with titles for you to customized - enter your text, color of font, & fonts to perfectly match your classroom! PLUS 8 slides you can completely customize - add your own title & text!

Easy-to-Follow Directions Included!

Step-by-step directions on how to edit the PowerPoint slides are included! PLUS a link to the free fonts I use included for you to download!

HOW TO EDIT

Fonts
If you want your fonts to match mine, you will need them on your computer. All the fonts I use are free for your personal use. You can click [here](#) to download them from Kimberly Geswein on TPT. To make editing easier, download and install these fonts before you open the PowerPoint (.PPTX) file. On this document, I have used the following fonts:

- KG Second Chances Solid - Click [here](#) to download from TPT
- KG Primary Penmanship- Click [here](#) to download from TPT

PowerPoint
Use PowerPoint to open the file. Choose the slide you want to edit. When you click on the following phrases, you will be able to edit the text.

- Grade/School/Teacher
- Enter Title Here
- Enter Text Here

•Remember that you are able to rearrange and/or delete slides as you see fit!

If you have already downloaded the fonts, the sizing will be the same. If you choose to use your own fonts, you may have to adjust the size of the text to fit the PowerPoint slide in an appealing manner.

Note: You will not be able to remove or change the other text or graphics. These items are locked per artist's terms of use.
